Core Concepts In Clinical Infectious Diseases (CCCID)

Synopsis

Core Concepts in Clinical Infectious Diseases (CCID) provides medical students and researchers, infectious disease fellows, and practicing clinicians with key clinical concepts in the differential diagnosis and workup of infectious diseases. With the use of tables, charts, and problem-oriented medical diagnosis, it will provide a way of organizing and thinking about commonly seen clinical presentations of infectious diseases. Instead of discussing each disease process or any particular infectious process, this book will assist clinicians in seeing the forest and not focusing on the leaf. Graphs and tables have been constructed over 14 years of taking notes, teaching clinical infectious diseases, and discussing real clinical cases. This book is not about acquiring the structure of infectious diseases that is presented in classic textbooks of infectious disease; instead, it is about refining the process of putting the pieces together in clinical thinking to achieve an accurate clinical diagnosis and thus improved patient care. Assists the reader in connecting the dots (process of accumulating real-time knowledge) during the thinking process of clinical decision-making in the area of infectious diseasesUses tables and charts for easy understanding and applicationContains a manual style that targets different audiences, such as medical students, hospital medicine specialists, outpatient internal medicine practitioners, infectious disease fellows in training, and practicing cliniciansProvides an up-to-date discussion of core concepts in clinical infectious diseases

Book Information

Paperback: 244 pages

Publisher: Academic Press; 1 edition (March 29, 2016)

Language: English

ISBN-10: 0128044233

ISBN-13: 978-0128044230

Product Dimensions: 6 x 0.7 x 9 inches

Shipping Weight: 15.5 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars Â See all reviews (1 customer review)

Best Sellers Rank: #512,213 in Books (See Top 100 in Books) #90 in Books > Textbooks >
